具有二十年空压机行业经验的施耐德日盛机械集团，永磁变频空压机行业标准起草者，专为激光切割机研制开发的系列压力20bar永磁变频空压机，具有高效节能、高可靠性等优势。

施耐德日盛空压机针对激光切割设备，专门配套了一整套完善的压缩空气解决方案，涵盖空压机、储气罐、冷干机、各级精度过滤器、节能管道等几乎全部压缩空气流程的所需设备，真正实现一站式采购，能满足各种客户的需求，客户只需接通一体机的电源和压缩空气管道即可使用。

Schneider-sunshine ltd. has 20 years experience in air compressor's industry, leading in permanent magnet frequency conversion air compressors manufacturing, espeacilly series of 20bar permanent magnet frequency conversion air compressors which specialized in laser cutting machine. It is high efficient and energy saving, it is the reliable device to use.

Schneider-sunshine's air compressor is speacilly for laser cutting machine, with a perfect solution of air compression, which all components for air compression process includes air compressor, gas storage tank, cooler, precious filter at all level, energy saving pipeline system etc. it can meets every kinds of needs for different customers. And it is easy to operate, it only needs to connect the power and pipeline for air compression.
